

Hospitality Chillers

Hygienic Wall and Ceiling Solutions

Main Issues in Hospitality Chillers:

Hospitality Chillers are often finished with low quality materials and have the following issues:

- Rust on walls of chiller
- high levels of fungus and bacteria due to poor finishes leading to failure of food safety requirements and odours
- Peeling of painted surfaces further leading to more corrosion
- Damage to panels due to impact and heavy duty usage
- damage to panels due to heavy cleaning chemicals
- Difficult to renovate panels without dismantling existing room
