

Supermarket Fruit processing areas

Hygienic Wall and Ceiling Solutions

Main Issues in Supermarket Fresh Produce Areas:

Supermarket Fresh Produce Areas are often finished with a range of low quality non-hygienic Surfaces, they have the following Issues:

- high levels of fungus and bacteria due to poor finishes leading to failure of food safety requirements and odours
- Staining from heavy moisture and cleaning
- Impact damage on walls
- Continuous repainting needed due to hard to clean walls
- Continuous Cleaning of grout and other finishes due to pores in surface and joints
- Surfaces which are not biologically resistant

Recommended Finishes

Glasbord® with Surfaseal® for Walls and Ceilings

Embossed White | 85

Smooth White | 85

Main Issue	How Glasbord® with Surfaseal® Provides a solution
Low quality finishes after installation due to constrained installation time	Glasbord® with Surfaseal® is extremely light and at least 4 times faster to install than ceramic tile. Glasbord® with Surfaseal® is extremely easy to install and gives a high quality finish..
Mold and Mildew growth leading to Odours and bacteria and loss of food safety	Glasbord® with Surfaseal® does not allow any mold or mildew growth and is ASTM tested.
Continuous repainting, moisture damage on walls and ceilings	Glasbord® with Surfaseal® is extremely wearing and resistant to heavy cleaning. It is also completely waterproof and a pore free surface. It is also highly impact and scratch resistant

Benefits

- ✓ Completely non porous surface, highly washable and stain resistant
- ✓ Chemical Resistant and resistant to repetitive heavy duty cleaning
- ✓ Mold and mildew free
- ✓ High impact and scratch resistance
- ✓ Easy and quick to install
- ✓ HACCP certified
- ✓ Fire rated: Class C , Class A and FM global
- ✓ UL GreenGuard Gold product certified for low chemical emissions
- ✓ Extremely washable and supports repetitive cleaning process.
